To Whom It May Concern,

Hollenbach Construction, Inc. has recently completed a 21,778 square foot "State Of The Art" new auto collision service center located along Route 100 North of Boyertown. Throughout the project, their attention to detail, communication and quality workmanship were excellent. We were extremely pleased with all phases of our project and would recommend Hollenbach Construction, Inc. to others. Our new pre-engineered metal building, blended with sections of conventional construction, has certainly drawn good comments and compliments from the public.

Sincerely,

A handwritten signature in black ink, appearing to read "Dennis Malloy". The signature is written in a cursive style with a large, sweeping "y" at the end.

Dennis Malloy
President
