Fred Beans
Family of Dealerships

May 6, 1998

To Whom It May Concern:

This is a letter of recommendation for Hollenbach Construction. In 1997, we constructed (2) two very large renovation projects for our Saturn Franchise. In Devon, Pennsylvania we converted an Oldsmobile Dealership and taco restaurant to a Saturn facility. Not only are we pleased with the construction, but Saturn Corporation, located in Berwyn, Pennsylvania has been using it as their model Saturn store.

At the same time the Devon project was going on, Hollenbach was putting a 4500 square foot addition on our Saturn of Doylestown service area, a second floor and a showroom renovation.

Overall, with both projects, we were quite happy with the quality of the workmanship of the construction, the professionalism of the company, as well as the personal attention of Mr. Ed Refsneider and his crews in both projects.

If any of your future clients would like to ask me any additional questions, please have them call me at 345-8270 extension 10.

Sincerely,

Beth Beans Gilbert
