

# PERKIOMENVILLE MENNONITE CHURCH

• PROCLAIMING THE WORD • MAKING DISCIPLES • CONNECTING PEOPLE WITH GOD

October, 2007

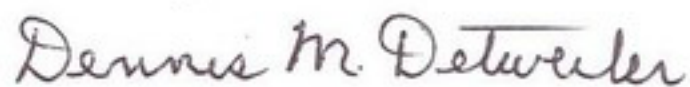

To Whom it may Concern,

In the year 2001 our congregation contracted with Hollenbach Construction Co. of Boyertown to be our General Contractor for the building of a new church facility. Due to several redesigns of the building, an extremely lengthy process of dealing with the local municipality and their engineering firm and other miscellaneous delays our congregation moved into the new building in August of 2007. This extremely long time period was not the fault of Hollenbach Construction Co. but is related to express their "over the top" level of understanding, cooperation and support to us during this extended time. Their courtesy, patience and helpfulness was outstanding.

We were treated as important friends, not only by the project manager but also by the project foreman and workmen. There was an ongoing effort to coordinate the various phases of construction with the subcontractors and materials suppliers in order to keep the project moving forward. When we asked for modifications to the original design, the attitudes and responses were positive.

Based on our experiences with Hollenbach Constructions Co., I am pleased to recommend them for your construction needs. Our congregation found those who worked for us to be persons of integrity. We received what we paid for. They have become our friends.

Sincerely,

Dennis M. Detweiler  
Chair of Church Council
