Rev. Dr. David P. Harris, Lead Pastor

Building Full Life Disciples of Christ

The West Grove United Methodist Church contracted with Hollenbach Construction, Inc. to build a 15,000 square foot single story slab on grade structure. The building consisted of 14 classrooms, an administrative area, kitchen and a combination fellowship hall/sanctuary.

Of the eight bidders, Hollenbach Construction, Inc. was selected. The job was started in April 1999 and completed on time by the projected date of December 20, 1999. Throughout the course of the job, Hollenbach Construction, Inc. in house staff showed good knowledge and workmanship throughout all parts of their building construction. They were able to have materials at the job site in step with the progress of the job.

Robin Rhoades, project manager, was very responsive to our questions and suggestions and always returned messages and requested information in a timely fashion. The job superintendent, Rich Longacre, kept the job clean, orderly and on various occasions made the extra effort to alert the building committee at home in the evening to possible problems and solutions before they became a job stopping crisis.

Overall, West Grove United Methodist Church was pleased with Hollenbach Construction, Inc. and their staff. We thank them for their help on our job and would recommend them to any other congregation looking to make more space for God's plan.

Building Full-Life Disciples of Christ

Our Purpose

Is to enable people through mutual support, prayer, and training, to discern and fulfill their God-given Ministry in order to proclaim the Good News of Jesus Christ to our Community.
